Many forfeitures are about to accrue, from failure to pay taxes; many claims, otherwise good, will be barred by adverse possession of three years—that being the limitation; many titles of lands conveyed in the United States, cannot be admitted to record in Texas, for want of proper authentication. Owing to some one or other of these causes, the best lands are in a condition to be lost.

Having made it my business to become acquainted with all the laws relating to titles, and being determined to attend diligently to all claims confided to me, I require, in all cases, an advance in cash, sufficient to cover expenses of investigation. When that shall be done, I am willing to take a contingent interest in the lands for attention and services.

The regular course of instruction in this school is similar to that of the best institutions of the country. Clinical instructions will be given daily at the Charity Hospital in the various branches of medicine. The professors being the attending surgeons and physicians to this extensive institution during the session of the school, have every opportunity of making their lectures practical and thorough.

The Professor of Obstetrics having under his entire control the female wards of the hospital, is enabled to exhibit to the class those diseases peculiar to the sex, and also to furnish the senior members as many cases of labor as are necessary to give them a practical acquaintance with this important branch.

The facilities for prosecuting the study of practical anatomy and operative surgery are unrivalled—subjects being supplied in any number, free of charge.

OREGON AND CHINESE WHEAT.—Just received a few sacks of the above new and superior seed grain, from H. R. Smeltzer, esq., of Bloomfield farm. The Oregon is a red kernel wheat, and the Chinese a beautiful plump white kernel. These extraordinary varieties produced Mr. S. last season 45 to 50 bushels of wheat per acre, weighing 63 to 68 lbs. per bushel.

"Oregon and China wheat.—There have been left at our office two new species of wheat.—one called 'Oregon,' the other 'China.' It was taken from the Bloomfield estate, belonging to Henry R. Smeltzer, near Middletown, Frederick county, Maryland. The 'Oregon' wheat was found or discovered by a missionary travelling through that territory, who brought it to this country in 1859. Mr. Smeltzer this year raised from four and a quarter acres, 212 bushels and 43 lbs., which is a fraction over 50 bushels to the acre. This wheat is very hardy, of a beautiful red color, with smooth chalf, heads from 5 to 6 inches long, and average from 90 to 130 grains to the head. It is believed it will yield at least 20 per cent. more to the acre than the ordinary wheat, from the fact that it has from 15 to 20 grains more to the head. The history of the China wheat is rather singular. A few heads were found in a box of China-ware imported from the north of China; and the heads being so very large and compact, the discoverer was induced to plant them. Mr. S. informs us that last year 47 bushels per acre. This is a beautiful white wheat, and has heads or cars about as long as the 'Oregon' wheat, and about the same number of grains to the head. The China' wheat is of the early kind, and, so far, has not been injured by smut, mildew, or dy."—Sus.

The above valuable seed grain is for sale at the agricultural store of J. F. CALLAN, Washington; also for sale by J. H. KING, Georgetown.

Charma A. Harris, M. D., demonstrator of mechanical dentistry.

The faculty are gratified in being able to inform the community, that, in addition to the laboratory aiready attached to the college, arrangements have been made for opening a dental infirmary, which will go into operation the ensuing session, and be conducted on the most liberal principles.

It is designed to extend relief, gratuitously, to all those who are too poor to pay a dentist, by simply defraying the cost of the material used in repairing the teeth.

All operations on the mouth and face will also be performed without charge.

This infirmary, it will be perceived, is a purely charitable institution, extending the same relief to the dental apparatus of all the destitute poor, that medical infirmaries do to diseases of other parts of the body.

It will also add greatly to the practical facilities which the college already furnishes the student, by giving him not only a better opportunity of daily witnessing the various operations, but also of taking part himself, and thus acquiring that practical tact so essential to the skillful dentist.

Wright's Indian regetable pills counterfeld.

The proprietor of Wright's Indian we pills has discovered that his pills are count and extensively circulated through the coupersons unauthorized by him.

Dealers in the above pills are therefore fully informed that Dr. T. W. Dyout & St the Columbian College, No. 132 North street, Philadelphia, are the only persons authorized as myself.

Any other persons travelling through the try offering my pills in quantity, and at a prices, are assuredly base counterfeiters, and o be rejected as such by every "honeat dealer, is to be hoped will be, if it is only for the heat the lives of the public.

La BARGAINS: at the old stand (but new store.)

The subscriber has just opened an immense quantity of new fall and winter dry goods. In the large assortment will be found those which are scarce and desirable, and in point of beauty, richness, and cheapness, cannot be excelled.

As I have all kinds of goods usually kept in staple and fancy dry goods stores, it is useless to specify. To my regular punctual credit customers, goods will be sold on the same plensing terms as heretofore.

To cash customers, I would only add, give me a call, and the goods are yours.
